Purify

The importance of having the blood in a pure condition is a fact which is becoming more and more generally appreciated. It is the source of all vitality, and its purity is essential to the health of the system. The blood is the life-giving fluid, and its impurities are the cause of all diseases. It is the duty of every person to keep the blood pure, and the best way to do this is by using Hood's Sarsaparilla.

The Government Gloriously Sustained.

The people of Canada have spoken and with no uncertain voice. By their vote at the polls they have condemned the "rebel" tendency of Laurier, Cartwright, Wilmot, Patterson and the others who would have given the grand country to the United States. They have denounced the open treason of Farrer; they have declared for Canada for the Canadian; for the old flag, the old leader and the old policy; for commercial peace with our neighbors—peace with honor.

This is a result which we, having faith in the loyalty of the people of Canada—in their intelligence and in their patriotism—fully anticipated. Strong was the effort of the agitators to deceive and mislead the people into believing that the final independence of their country, they have failed, and failed miserably of success.

The Government have been sustained by a practically unimpaired majority, and it will govern the country for the next five years. Our manufacturers will be protected; Canadian will be given work at home; our farmers will have the home market realized for them.

The Government, their project of reciprocity as outlined by them having received the sanction of the people, will thus be in a position to deal authoritatively with the matter.

We heartily congratulate our grand old leader and our grand old party on the result, and more particularly do we congratulate Sir John on his unexpected majority in Kingston, and upon the election of his son in Winnipeg by an overwhelming majority.

The number of gains and losses on either side has been greater than in any previous election. In the Maritime Provinces the Government have made large gains, but in Quebec and in Ontario the balance of gains is considerably in favor of the Opposition, while in the North western provinces the result has been no change. The net result is as appears, at the time of writing, as follows, taking the gains by provinces:

Province	Gains	Losses
Ontario	5	18
Quebec	10	10
Nova Scotia	4	0
New Brunswick	4	1
P. E. Island	2	0

A net loss of 3½ seats to the Government.

In this district the Government held their own, Prime Minister being gained and Lennox lost.

In North Hastings, owing to local reasons and the lack of preparation on the part of the supporters of the Hon. Mr. Bowell, who was standing in the place of Mr. Lennox, the party majority was largely reduced.

In the West riding, with the strongest candidates on each side in the field, the Conservatives won a glorious victory, burying Mr. Roger Chisholm beneath the largest majority ever given in West Hastings. This was precisely in accordance with our forecast. It was particularly significant that in Sidney—where Mr. Chisholm, expecting that the boisterous cry of "Free Trade" would mark amongst the farmers, declared that he would have a majority twice as large as was ever given to a Reform candidate in that township—the Conservatives, at Belleville and Trenton did not only, and gave to Mr. Gorb a majority of which he may well be proud as an endorsement of his valuable public services as well as his evidence of his personal popularity.

In the East riding, Mr. W. B. Southwell made a gallant effort to win the constituency, but failed only because of the superior value of the voters' judgment in favor of the Conservatives. In Deseronto he increased the majority and in Tynesburg he reduced

the Grit majority largely; but in Thorburn and in Hungerford, owing to the cause above stated, Mr. Burdett secured a hard-earned victory. Mr. Northrup, who, however, carry East Hastings at his election, came within it may, and he will be a credit to the constituency in Parliament.

Prince Edward, in reporting the result of the election, in favor of the Reform party, has taken patriotic and significant action—significant because it is the best barometer of public opinion.

Canada has repudiated the Grit annexationist propaganda. Liberal Reformers have sided with the Conservatives in the good work, and the Bay District has not failed in its duty.

BY PROVINCES

Province	Cons.	Lib.	Opp.
Ontario	11	43	43
Quebec	17	4	31
New Brunswick	10	1	1
P. E. Island	2	0	0
Manitoba	4	1	1
British Columbia	0	0	0
N. W. Territories	0	0	0

There are three places in Ontario and four in Quebec still to be heard from.

When it is considered that in Ontario, Quebec, Nova Scotia, New Brunswick and Manitoba the numbers of the members of the Government worked hard for the Opposition—when it is taken into account that Mr. Laurier had promised to the provinces additional subsidies amounting to \$1,400,000 per annum—it will be seen that the victory is the greatest in the history of the country.

Hon. Mr. Foster, Minister of Finance, was not defeated, as reported, in King's, N.B.

The Grit rout of yesterday is worse than that of 1887. Then the Government had 25 majority, now they have 40.

Now all good citizens accept the verdict of the people and settle down to business. "Haul down the flag," James of Halifax, and Annexationist Killa, are amongst the victims of the day.

The defeat of two members of the Cabinet—Hon. John Gaird of London, and Hon. G. B. Sifton of Regina—will be regretted by every true Conservative.

TWO-ROWED BARLEY.

In a bulletin issued by the central experiment station at Ottawa, the following information is given to the growth of two-rowed barley in this Province on seed sown by the Government:

Out of the 572 reports received from Ontario, 357 reports of a yield of the crop are given, and the average of these is 27½ bushels per acre, and the samples sent weighed an average of 50½ lbs. per bushel.

Many of the farmers who sent samples stated in their letters that they were sent just as they came from the field, and since such grain is not in a marketable condition it was thought only fair to the barley to make the samples as they came from the field.

These results are given as follows: Yield, 24½ bushels per acre; weight as received, 50½ lbs. per bushel. The average of the barley crop of Ontario for 1890, as given by the Bureau of Statistics, is 22½ bushels per acre, and this is based on the returns from 1,015 correspondents.

On comparing the yield of two-rowed barley with the estimate of last year's crop, after above shows an average gain of 5½ bushels per acre, and that grown after other crops of over 2 bushels; or, taking the average of the whole, the yield is 25½ bushels, or a gain of 3 bushels. Such a gain per acre on the barley crop of Ontario for 1890 would add \$1,157,187 to the income of the farming community of the Province, and will be a most valuable asset for the year following.

Following are the reports upon the results obtained in the field:

The results are about the same in other counties, but upon the whole the prospects are that the use of the seed will be largely extended in the approaching season, as the six rows is less desirable for export or home consumption.

S. E. Lane, Wallbridge, sowed one bag on 1½ acres, and had 25 bushels, and says: "I yielded 1½ bushels. The crop is more than the six-rowed barley, and stands the wet weather better."

Alex. Morton, Thornburg, had a yield of 30 bushels, or 40 bushels per acre, and says: "I would have yielded better if it did not blow down in a week or two, and a half later than six-rowed."

Henry Fenn, Foxboro, had 28 bushels, and says: "I believe we can raise the barley if you can get us a market for it."

John Toppan, Mayville, sowed his bag on 1½ acres, and got 30 bushels. He says: "I sowed it too thick."

John Frank, Frankford, had a yield of 30 bushels, or about 20 bushels an acre, and says: "I sowed 2½ bushels 50 lbs. per bushel. The seed was sown in the first week of April, and the crop is now in the field, and the same quantity per acre."

John Haggerty, West Huntington, sowed one bag on nearly 1½ acres and had 32 bushels. He says: "I sowed 2½ bushels; lodged badly; sowed 1 bushel in field with six rows, which stood much better; all our barley almost a failure this season; I think it should be sown very early, and sowing next spring."

Wm. Arbuckle, Thornburg, had 30 bushels from one bag, and says: "A large crop was sown by a Reform candidate in that township—the Conservatives, at Belleville and Trenton did not only, and gave to Mr. Gorb a majority of which he may well be proud as an endorsement of his valuable public services as well as his evidence of his personal popularity."

In the East riding, Mr. W. B. Southwell made a gallant effort to win the constituency, but failed only because of the superior value of the voters' judgment in favor of the Conservatives. In Deseronto he increased the majority and in Tynesburg he reduced

A Valuable Dog.

The trotting dog Doc, owned by Mr. M. P. Ketchum, of Colburn, has proved very valuable to his owner. The dog made his public exhibition of speed on the track here, when he created quite a sensation, so much so that he was taken to Montreal, where his wonderful speed made him an object of great interest. As a result, in filling places the dog was shown at most of the big races in the States, and at the close of last season, earning for his master \$9,000. For his intelligence and his wonderful speed, he is offered and refused. He is already booked for all next season at big prices, and for the World's Fair he is booked for five weeks at \$800 per week.

THE KEY TO HEALTH

**BURDOCK'S BLOOD
PURIFIER**

It is a well known fact that the blood is the life of the body. It is the blood that carries the life-giving oxygen to the cells of the body. If the blood is impure, the body is impure. If the blood is pure, the body is healthy. Burdock's Blood Purifier is a powerful blood purifier. It cleanses the blood of all impurities, and restores it to its natural purity. It is the key to health.

RUGBY SCHOOL LIFE AND GAMES.
(Final Article.)

I give the every-day routine at Rugby as my young man "Lover Mike" (first name) told it to me. "Well, the 6:15 morning train is the first thing I get up to."

Then another bell rings at ten minutes of seven for five minutes. We get up to the school in a hurry to get to the school.
